C8 Z06 CORVETTE

Unparalleled Performance. Intoxicating Sound.

For over 20 years CORSA Performance has revolutionized the Corvette aftermarket exhaust category through cutting-edge acoustic technology. Using advanced acoustic modeling and proprietary Reflective Sound Cancellation (RSC) technology CORSA Performance has established itself as the market leader for Corvette performance exhaust systems. Designed to unleash unparalleled exhaust notes, while providing the most refined in-cabin driving experience in the world. CORSA's C8 Z06 exhaust assortment continues the legacy with 2 unique systems designed to cater to the C8 Z06 enthusiast.

CORSA's NPP system (21111) offers the ultimate driving experience integrating flawlessly to the C8 Z06 valve actuators allowing full control of the driving experience. This system offers exotic exhaust notes and a drone-free driving experience.

CORSA's Track System (21113) offers the ultimate in unbridled aggression and caters to the driver looking to be heard. This exhaust screams and offers an immersive acoustic experience behind the wheel.

- No Drone Reflective Sound Cancellation (RSC®) Technology (21111)
- Exotic Exhaust Notes Under Acceleration and on Cold Start
- Straight Through Design Maximizes Performance
- 304 Stainless Steel Construction
- CORSA Exclusive C8 Spec Cast Valve Assembly
- Bolt-On Installation
- Made in The USA
- Limited Lifetime Warranty
